McAfee Spamkiller

Return to [Whitelisting](#)

The McAfee Spamkiller works with Outlook, Outlook Express, Outlook 98, MSN/Hotmail to block spams. To whitelist Church Community Builder sent mails,

- Select **Friends** tab.
- Select **Email Address** tab.
- Select the down arrow to view **Personal Friends List**.
- Select **Add a Friend** from the right hand side.
- In the address box, **add the Church Community Builder address** (the specific email address), and select Single e-mail address as type, and Add.
- Select **Domains**.
- In the address box, enter ccbchurch.com, choose "all users at domain" as type and click **Add**.
- Select **Save**.
